

INNOSETA

Innovative Spraying Equipment Training and Advising

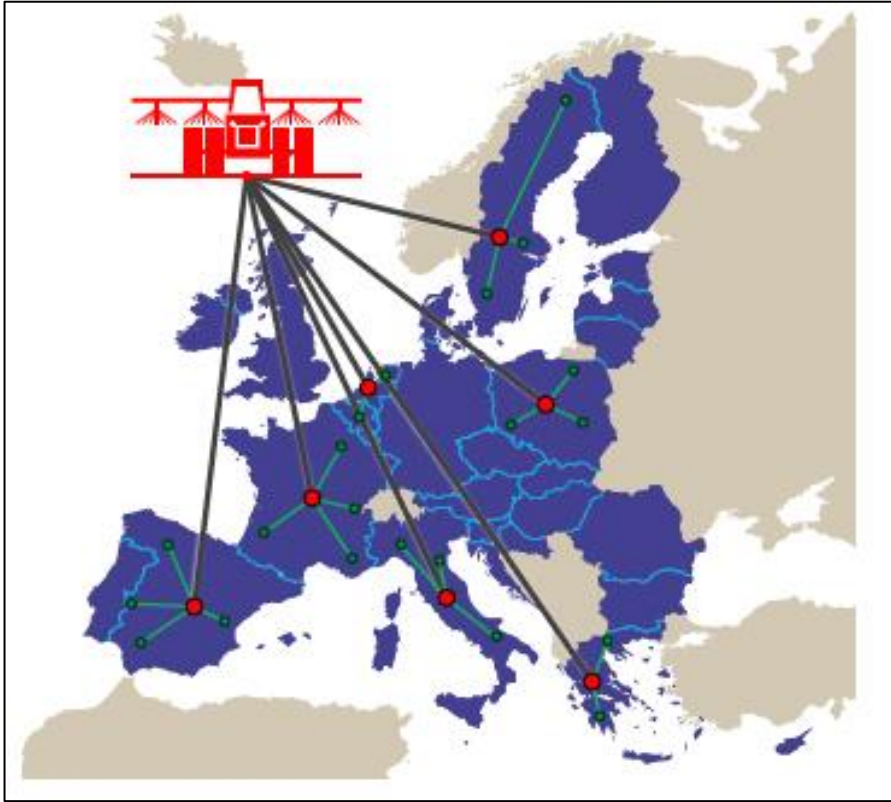

Prof Emilio Gil
Project Coordinator (COO)
Universitat Politècnica de Catalunya (UPC)

The main objective of **INNOSETA** is to close the gap
between research and daily agricultural practices in Europe

Accelerating **INNO**vative practices for **S**pray **E**quipment, **T**raining and **A**dvising in
European agriculture through the mobilization of agricultural knowledge and
innovation systems

INNOSETA hubs

#	Regional/national hub	Cropping System
1	 Spain	Orchards, Vineyards, Greenhouses
2	 Italy	Orchards, Vineyards, Cereals
3	 France	Orchards, Vineyards, Cereals
4	 Greece	Orchards, Vineyards, Greenhouses
5	 The Netherlands, Belgium	Cereals, Vegetables, Greenhouses
6	 Sweden	Cereals, Vegetables, Orchards
7	 Poland	Cereals, Vegetables, Orchards

INNOSETA consortium

Academia/Research

Manufacturers

Farmers

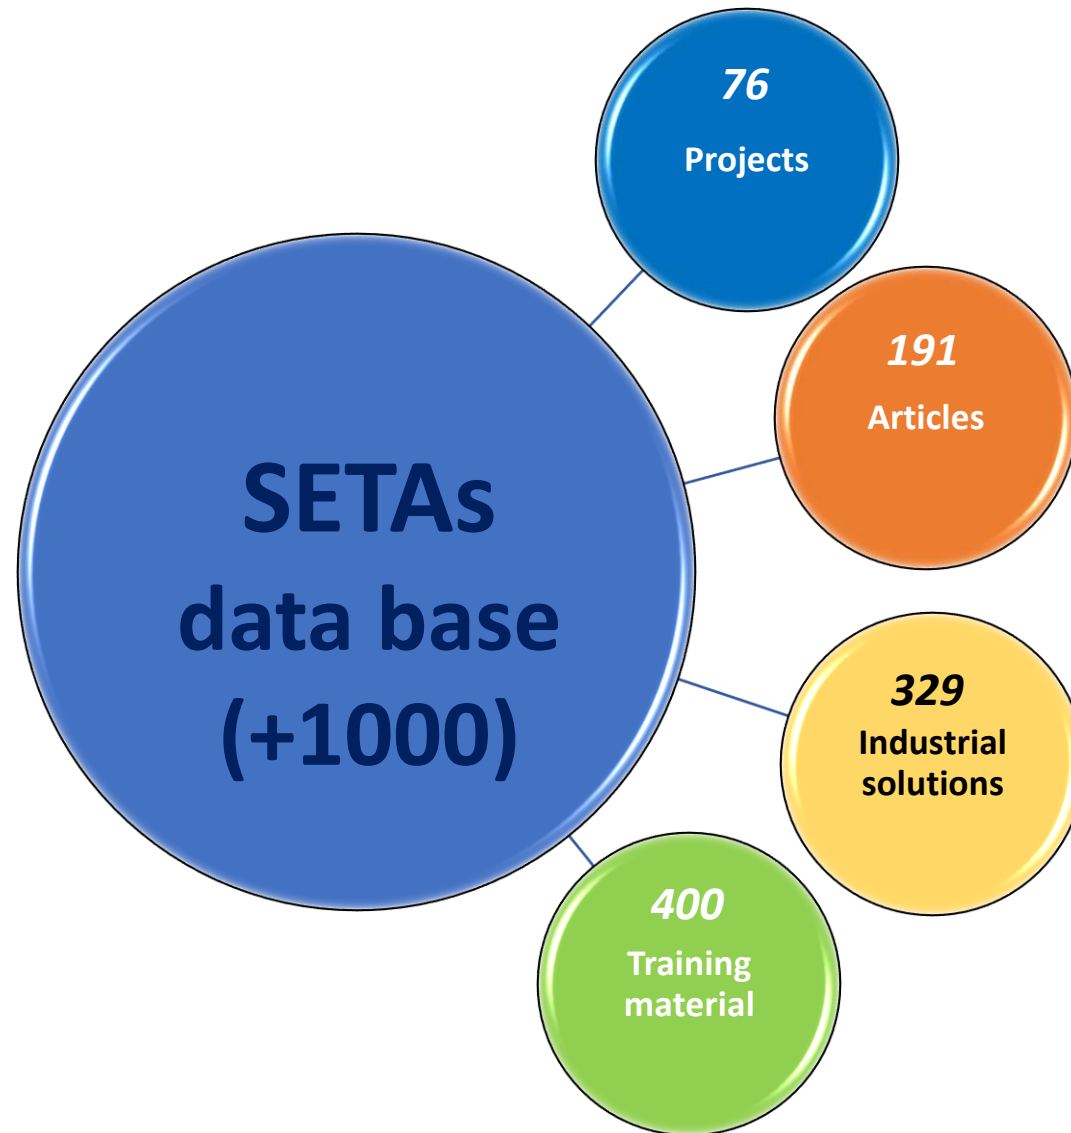

Advisors

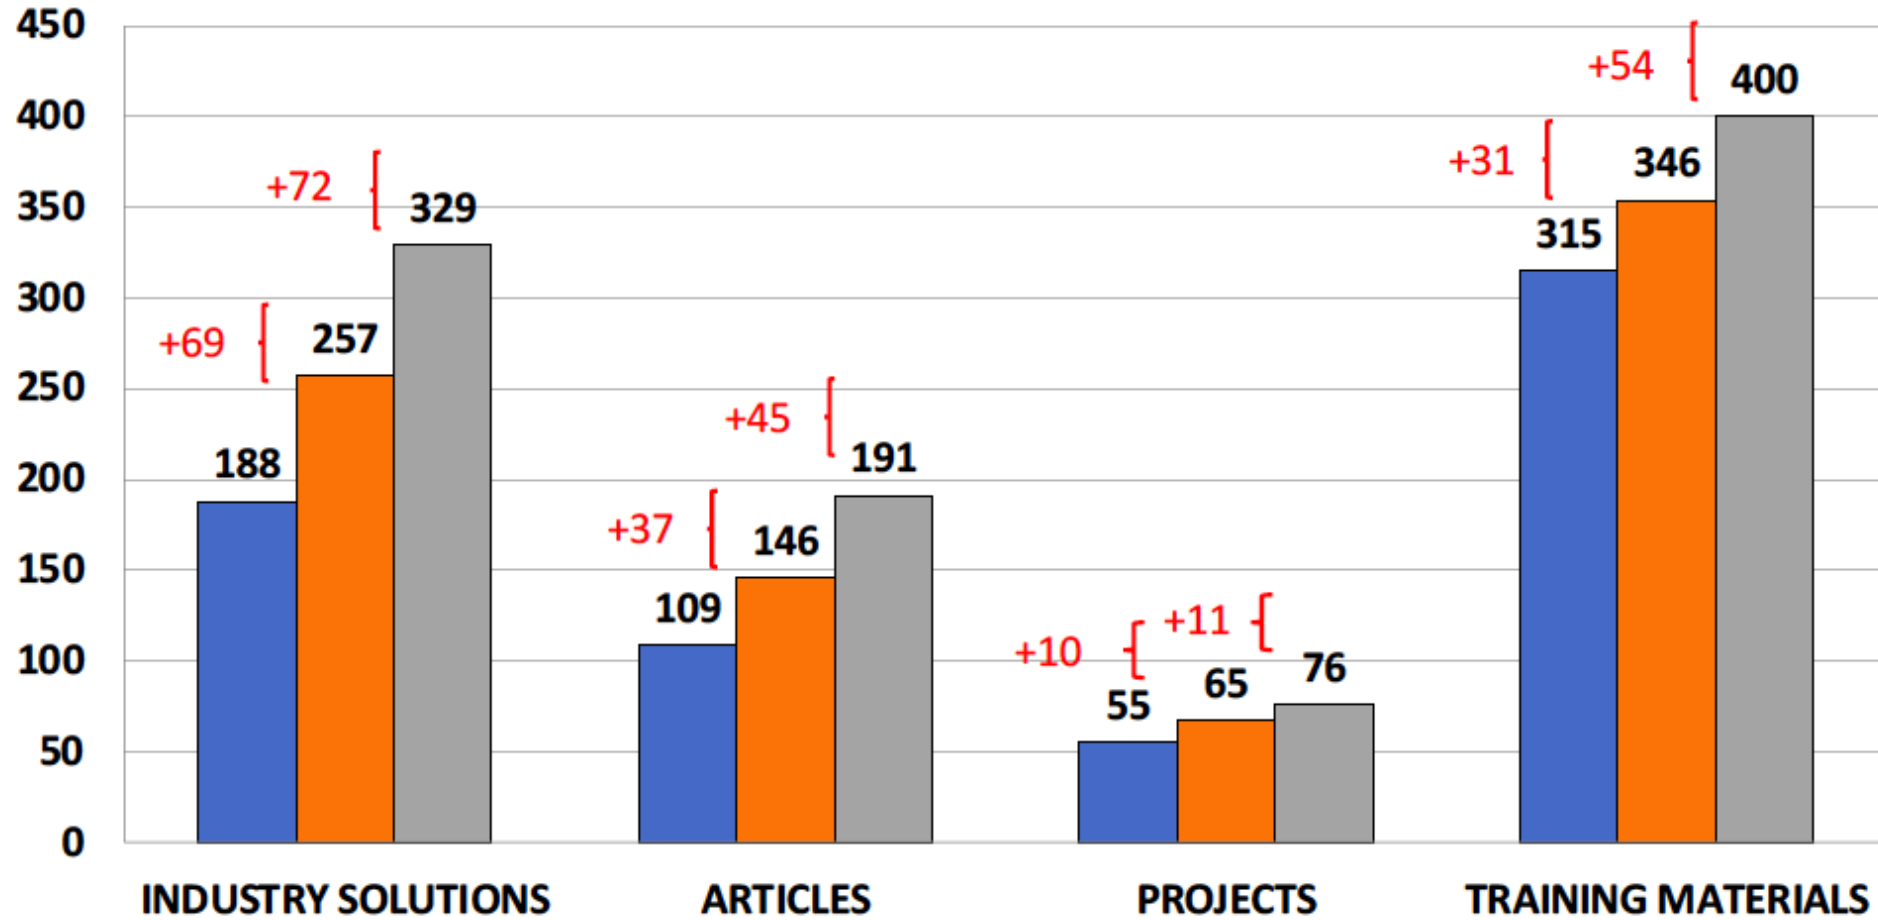

INNOSETA Platform

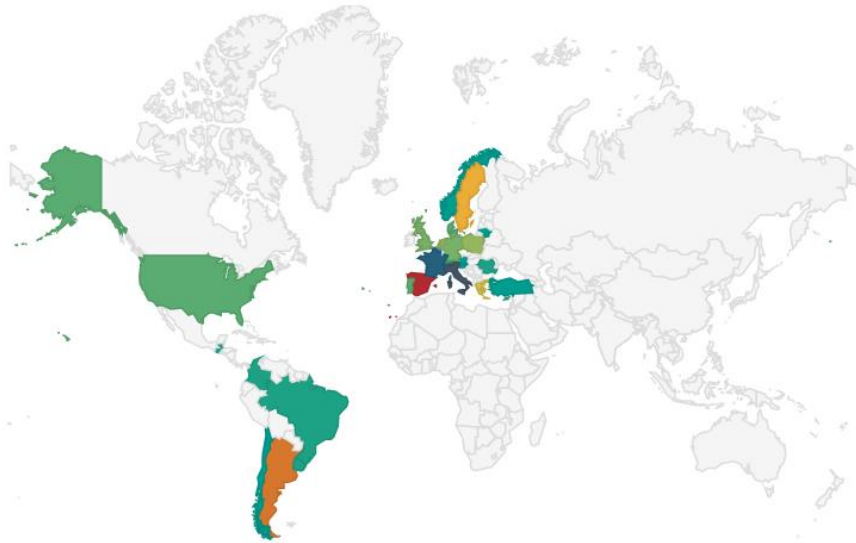

A freely accessible repository of innovative spraying technology, training material, projects and papers tailored to the needs of the spraying community

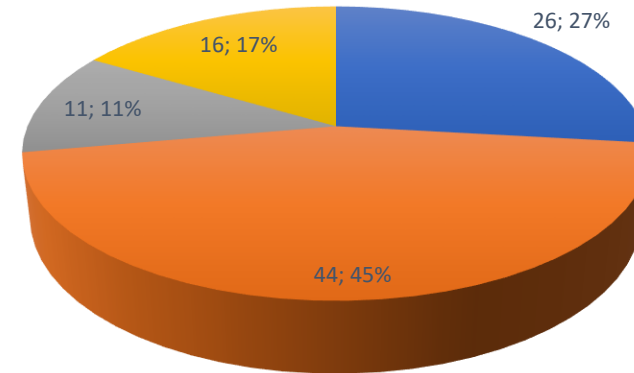

INNOSETA Platform webinar (April 2021)

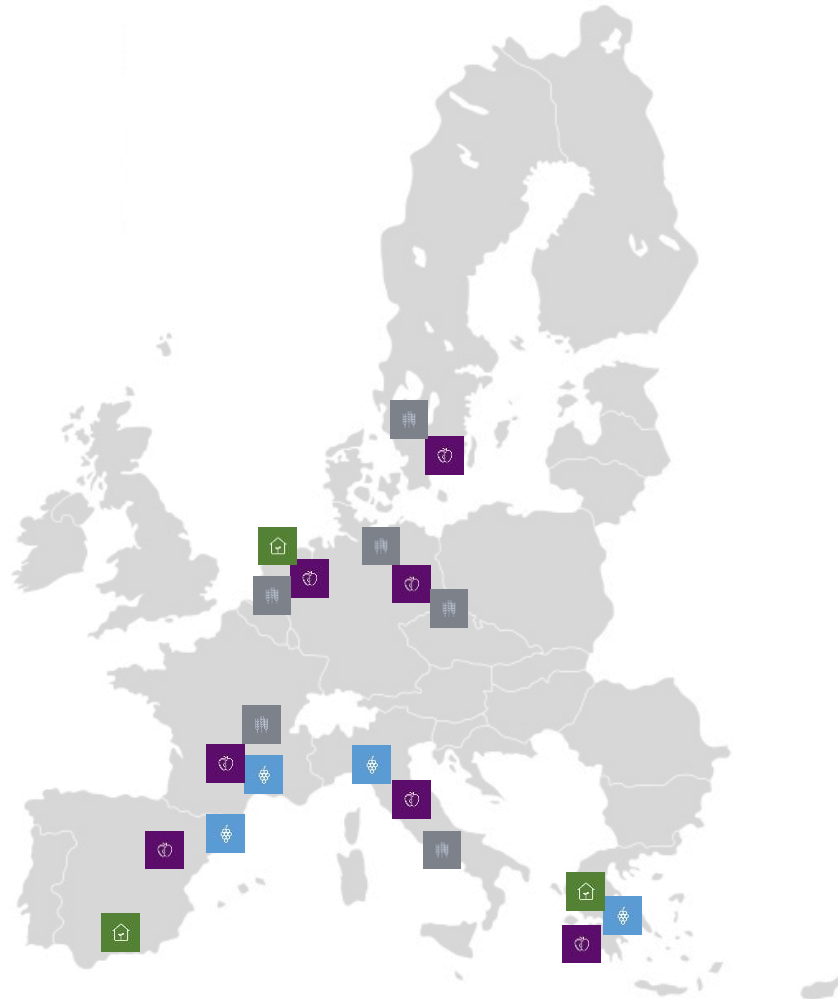

> 250 attendees

Which section of the INNOSETA platform is the most useful to you?

■ Industry Solution ■ Training Material ■ Article ■ Project

SETAs to be disseminated ... REGIONAL WORKSHOPS

Field Crops

Orchards

Greenhouses

Vineyards

20 Regional Workshops
(> 800 attendants)

REGIONAL WORKSHOPS

TNW

Thematic (3)

1. Spray quality & PA
2. Drift reduction
3. Point sources

- Reasons
- How to disseminate
- Benefits

- *Policy adoption*
- *Suggestions*
- *Problems*

> 40 SETAs

 International Online Workshop 

Innovative Spraying Equipment

Join the online workshop on Innovative SETA!

Wednesday 30/6/2021 | 3:00 - 5:30 PM (CEST)

Deadline for registrations: 28/6

INNOSETA preliminary results for POLICY

- Training**
- Difficulties to adopt new technologies**
- Difficulties for **internet connection**
- Subsidies** linked to **educational** activities
- Strictly **policy controls**; proper enforcement of policy to **ensure compliance**
- Long term and **harmonized regulations**
- Better use** of existing spraying techniques through **training** and **education**.
- Market prices**, regional differences, **importance of primary producers**
