

Innovation Portal

The soil to foster a new ecosystem in agri-tech sector

5

Portal functions

For the partners in the DIHs, CCs, RCs and IEs it will serve as an interactive marketplace to **exchange results, learnings and best practices.**

Support knowledge exchange

Templates, guidelines, how-to documents and trainings can be found in an easy to search library.

**Help partners
with capacity
building**

Existing databases, such as the inventory of Digital Innovation Hubs of the Smart Specialisation Platform, will be used as a basis for the **address book**.

Help
partners to
find each
other

Content for this will come from **the partners** and from the **associated networks** that SmartAgriHubs connects to.

**Inform on
relevant
events with
an events
calendar**

Showcase the project as a whole to a **wider audience**, with regularly **updated information** about the **progress** of innovation experiments.

**Showcase the
project**

 Reviewers

Welcome to the SmartAgriHubs DIHs Innovation Services Maturity Model (ISMM)

We need to ask you to understand and agree to the following terms before continuing.

The use of the SAHS DIHs Innovation Services Maturity Model, is subject of the overall SAHS Portal Privacy Policy which can be found here: <https://www.smartagrihubs.eu/privacy>

Besides the overall Privacy Policy, by using the Innovation Services Maturity Model you are agreeing to be bound by the following terms and conditions ("Terms of Use"):

- + SAHS can request upon notification to access and monitor the information provided in the context of the Innovation Services Maturity Model.
- + The DIH using the Innovation Services Maturity Model will be open to receive a "friendly peer-review" of the self-assessment.
- + The DIH using the Innovation Services Maturity Model will also provide a "friendly peer-review" of another DIH in return.
