

Webinar: INNOSETA platform - Innovative and practical on-line tool to improve the adoption of new technologies in spray application

*Monday, 12th April 2021
16:00 – 18:00 CET*

www.innoseta.eu

The main objective of INNOSETA is to set up an Innovative self-sustainable Thematic Network on SETA (Spray Equipment, Training and Advising) to contribute in closing the gap between the available novel crop protection solutions with the everyday EU agricultural practices.

This webinar will focus on explaining the SETA platform for on-line assessment in order to mobilize agricultural knowledge and innovation systems.

THIS PROJECT HAS RECEIVED FUNDING FROM THE
EUROPEAN UNION'S HORIZON 2020 RESEARCH AND
INNOVATION PROGRAMME UNDER GRANT
AGREEMENT NO.773864

AGENDA

- 16.00-16.15 Opportunities to increase education skills. Relation with risk mitigation.
Mr. Eric Liégeois - DG SANTE (European Commission)
- 16.15-16.30 INNOSETA project - General overview and main objectives
Prof. Emilio Gil - UPC - Project Coordinator
- 16.30-16.45 INNOSETA database - Large list of materials ready to be used
Prof. Fabrizio Gioelli – UNITO
- 16.45-17.00 INNOSETA Platform - Basic principles and benefits for users
Dr. David Nuyttens – ILVO
- 17.00-17.10 Open debate
- 17.10-17.20 Break
- 17.20-17.35 INNOSETA and Farm to Fork Strategy – How farmers can benefit
Mrs. Paula de Vera – COPA-COGECA
- 17.35-17.50 How to upload innovations? Practical demonstration (15 min)
Mr. Eric Mozzanini – UNITO
- 17.50-18.00 Conclusions – Open debate
Prof. Emilio Gil – UPC – Project coordinator
